To Whom It May Concern:

Mr. Ted D'Amore and his firm, D'Amore Design Studio, helped my family plan and construct an addition and updates to our house a few years ago. Ted not only did the design work, but continually offered insights on how the project could be done better to be more attractive and cost effective. The end results really do speak for themselves: an updated cherry wood and granite kitchen, an elegant tile-floored dining room, a refurbished, properly-built patio, and an attached sunroom and greenhouse where my wife can grow her orchids.

Ted was the consummate professional. He was very patient as we got the project underway, and helped move it along when we lagged. He took calls and answered myriad newbie questions. And finally, he kept the construction crew honest and accurate, and when concealed conditions necessitated a substantial change to the plans, Ted negotiated it such that it cost us no more than the original bid had.

I have used Ted's services in the past, and will be using them again in the future. I recommend him and his services to any who would ask.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas T. Lynch". The signature is fluid and cursive, with a large, stylized initial "T" and "L".
