Re: Bridge Animated Displays Inc.  
717 S. Third Avenue  
Mount Vernon, NY 10550

To Whom It May Concern:

Please be advised that as a trustee owner of the above referenced property I want to recommend Ted D'Amore and his firm D'Amore Design Studio as architects. We found Ted and his staff to be very creative in the design of our renovated space of over 85,000 square feet, and his consulting engineers quite imaginative in the design of efficient new systems for the building. Along with several lines of factory and production space, the firm designed a suite of executive offices with support spaces, production offices in the factory space, and a cafeteria, locker rooms and toilet rooms. In addition, Ted's mechanical engineers rectified a production problem with a powder coating machine that proved less expensive and more efficient than the equipment manufacturer's product. The firm and the team of engineers were always available to answer questions during the construction phase of the work and were very knowledgeable in solving issues that invariably arise in the renovation of a large building. Should we have another project in the New York region we would call D'Amore Design Studio again.

Very truly yours,

Blaise Fredella, Trustee
